Hyderabad, Telangana | vikram.singh.devops@outlook.com | +91-9445566778

Senior DevOps & Cloud Infrastructure Engineer

PROFESSIONAL SUMMARY

DevOps Specialist with 6 years of experience managing high-availability AWS cloud infrastructure, Kubernetes clusters, and automated CI/CD pipelines. Strong proficiency in Python automation scripting and Infrastructure as Code.

TECHNICAL SKILLS

AWS (EKS, EC2, VPC, IAM, Route53), Kubernetes, Docker, Terraform, Ansible, Python Scripting, Bash, Jenkins, GitHub Actions, Prometheus, Grafana, ArgoCD.

PROFESSIONAL EXPERIENCE

Cloud DevOps Lead | InfraStack Technologies, Hyderabad (2021 - Present)

- Designed and provisioned multi-region AWS cloud architectures using Terraform and Ansible for 50+ microservices.
- Managed production Kubernetes (EKS) clusters handling 20,000 requests/sec with automated horizontal pod autoscaling.
- Wrote Python and Bash automation scripts to detect and clean up orphaned cloud resources, saving \$4,000/month.

DevOps Engineer | CloudNine Solutions, Hyderabad (2018 - 2021)

- Maintained Jenkins CI/CD pipelines for Python and Node.js applications with automated security scanning.
- Implemented centralized logging and alerting using ELK Stack and Prometheus.

EDUCATION & CERTIFICATIONS

B.E. in Computer Science | Andhra University (2014 - 2018)
